SOURMILK
VIA TRIESTE, 5
MENZAGO DI SUMIRAGO [VA]
ITALY

"Sourmilk surrounds its roots in Italian soil,
with the mind and soul that without constraints
turn their eyes to contemporary art
from around the globe.

Provocative, unusual, irreverent, insane,
call it what you want, the goal remains the same
artistic declaimed:

beat the reality in the face of reality,
which is a surreal and disconcerting image..."

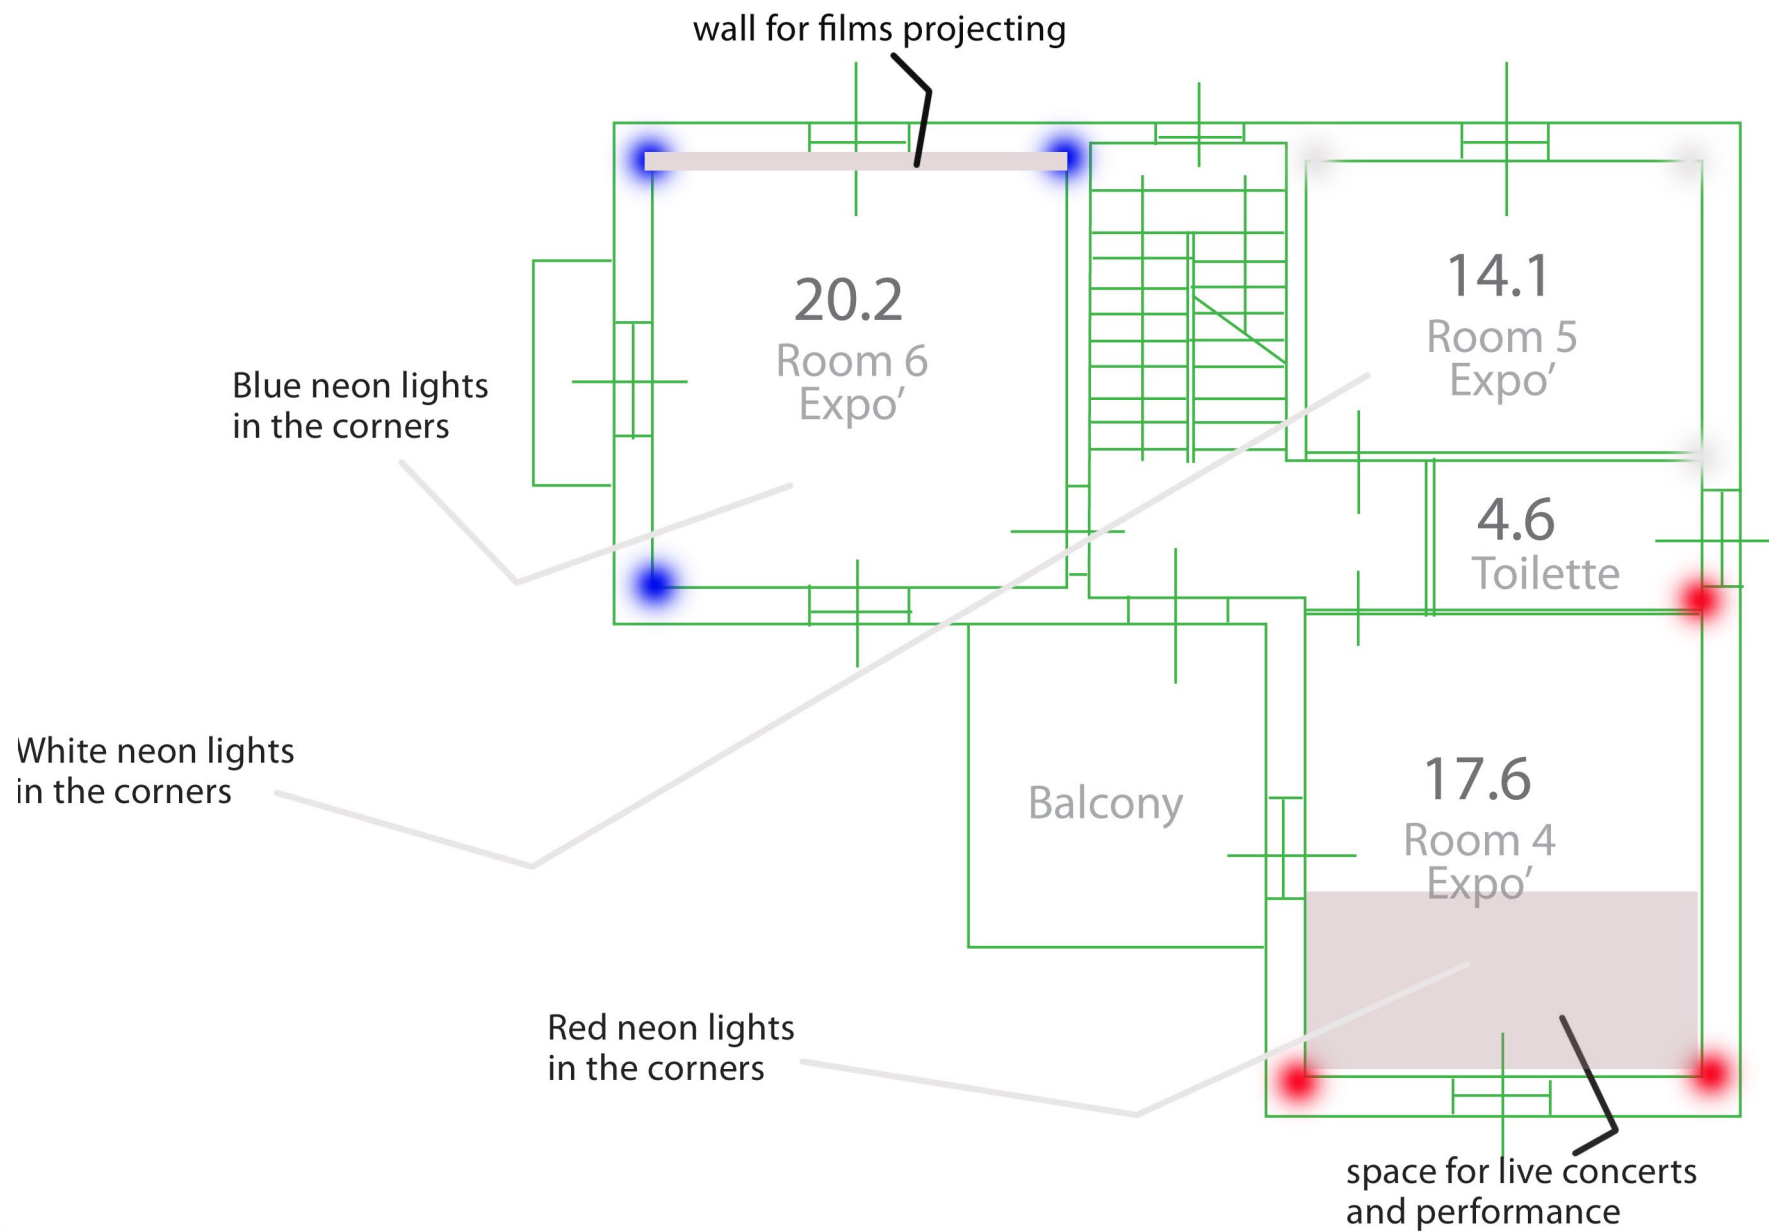

Clarissa Tempestini (curator)

All the first floor is dedicated to the art gallery that hosts national and international artists. Three rooms for contemporary art, surreal and bizarre art.

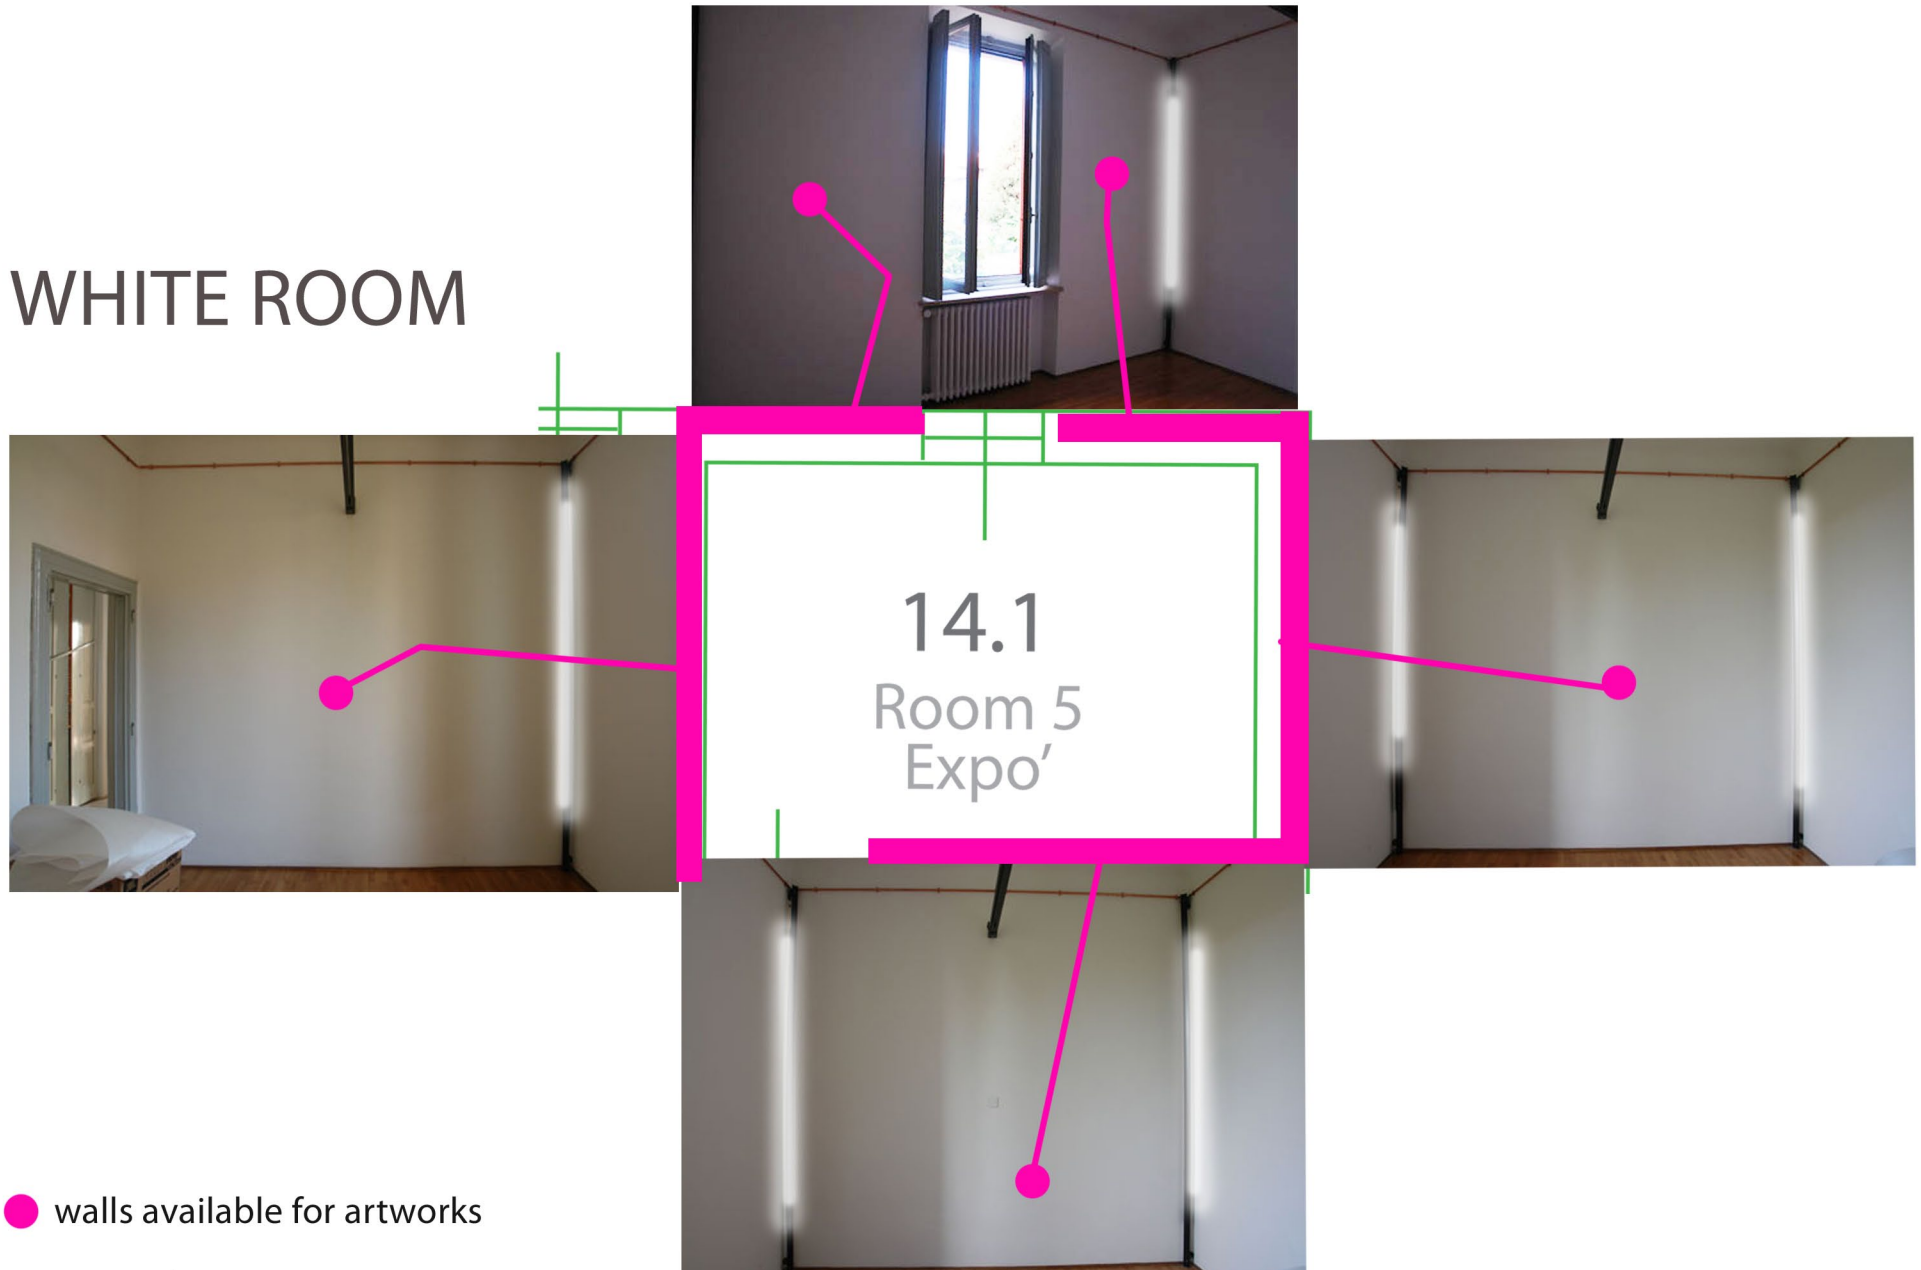

- White room: (with wooden floor and French velvet armchairs)
- Blue room: (with original ancient floor and decorated ceiling)
- Red room: (with wooden floors and installation for musical experiments)

To visit, on this plane, the surrealist bathroom with bottles “Surrealist Solutions” dedicated to Andre Breton and the Surrealists.

From this level it is possible to climb into a “half-floor” leading to the attic door (closed to the public). In this corner you will find two puffs in white leather, a sort of privee dedicated to those who want to carve out a place hidden and quiet during the evenings’ events.
